Dance Floor Size Number of Guests	20' x 20' 89	20' x 24' 107	20' x 28' 125	20' x 32' 142	20' x 36' 160
Dance Floor Size Number of Guests	24' x 24' 128	24' x 28' 150	24' x 32' 170	24' x 36' 192	24' x 40' 214

Dance Floor Care and Handling

- Dance floors need to be covered and protected from the elements of weather.
- Limiting the amount of time the dance floor is on grass is best to protect the lawn from damage.
- The dance floor area should not be watered 24-48 hours prior to installation and sprinkler systems should be turned off until the dance floor is removed.
- The install area under the dance floor must be flat and open.
- A subfloor may be needed if a dance floor is going on dirt or gravel as well as under a tent when rain is anticipated.

The basic rule when determining your dance floor size is that usually 50% of your guests will be on the dance floor at any given time and to allow 9 square feet per couple or 4.5 square feet per person.

For additional sizes and configurations please speak with one of our Event Specialists for assistance in meeting your specific flooring needs.
